

Mohit Sharma

Udaipur, Rajasthan, India | mohitsharma.codes24@gmail.com | +91-9660742141 | LinkedIn | GitHub

Objective

Full-stack software developer with 3 years of professional experience specializing in .NET Core, React-Redux, and scalable enterprise web applications. Skilled in building performant, maintainable systems and passionate about translating business needs into effective technology solutions. Seeking to drive impact within an innovative product team.

Skills

Programming Languages: C#, JavaScript, C, C++, Python

Web/Frontend: React, Redux, HTML5, CSS3, Ant Design, Bootstrap

Backend/Frameworks: .NET Core, ASP.NET MVC, Node.js, Express.js, RESTful APIs

Databases: IBM DB2, Oracle 19c, SQL Server, PL/SQL

Tools: Git, GitHub, SVN, Postman, Visual Studio, VS Code, Jira

Professional Experience

Software Developer *E-connect Solutions Pvt. Ltd, Udaipur* **Aug 2024–Present**

- Architected the Smart Tickets platform using React-Redux, Vite, .NET Core, and PostgreSQL—setting a new standard for scalable internal applications.
- Engineered a Dynamic Form Builder with Ant Design, empowering non-technical users to customize workflows and boosting team productivity.
- Driving the frontend of the Booking Management System (LDA project) with React and Reactstrap, delivering a fast, intuitive experience for end-users.
- Championed adoption of efficient development workflows (Vite builds, code review, advanced Git), accelerating deployments and improving code quality.

Executive Developer *E-connect Solutions Pvt. Ltd, Udaipur* **Jul 2023–Jul 2024**

- Streamlined RajSIMS stock verification with a modern React solution, reducing verification time and errors.
- Co-led creation of the “Reality Check” module for Raj Sampark 2.0, developing complex dynamic forms (React-Flow, Ant Design) in .NET Core and React-Redux.
- Enabled seamless Single Sign-On for LDA, elevating user security and ease of access across platforms.
- Mentored new team members and drove improvements in code testing, documentation, and workflow.

Intern / Trainee Developer *E-connect Solutions Pvt. Ltd, Udaipur* **Jul 2022–Jun 2023**

- Delivered enhancements for RajERP’s material management and HRMS modules using .NET MVC and WebAPI, improving functionality and reliability.
- Resolved key bugs and supported QA testing, directly contributing to smoother user operations.
- Developed strong fundamentals in agile collaboration and source control.

Selected Personal Projects

- **Corona Map:** Interactive COVID-19 dashboard using HTML, CSS, and JavaScript. Parses REST API data and visualizes stats on a responsive web map.
- **Event Portal:** Event registration and scheduling app built with Express.js and Node.js. Implements backend routing, templating, and user workflows.
- **Bharat Clock:** Live digital clock web app for Indian Standard Time, built with React Hooks; features smooth updates, time zone logic, and theming.
- **Todo App:** Feature-rich React task manager app. Showcases use of hooks, persistent state with localStorage, and modular UI design.
- **Reactivities:** Full-stack project using .NET Core Web API and React (with TanStack Query). Implemented authentication, CRUD operations, and role-based UI flows.

- **MERN App:** Complete MERN-stack app (MongoDB, Express, React, Node); developed secure RESTful APIs and adaptive interfaces using Bootstrap and Pug.
